

Capt. Manolis Alevropoulos

VP Marine Operations & Fleet Captain, Celebrity Cruises
Global Fleet Safety, Royal Caribbean Group
Port Development & Marine Infrastructure Expert

Captain Manolis Alevropoulos is the Vice President of Celebrity Cruises Marine Operations, since 2019. As the Vice President and Fleet Captain (since 2017), he is responsible for managing day-to-day marine operations, providing leadership, guidance, and officer development with a focus on Maritime Safety, Environmental Compliance and Sustainability, Public Health, Security and Technical Reliability.

Captain Alevropoulos has overseen the Port Development and Marine Infrastructure for Royal Caribbean Group (RCG) from 2015 until 2017. He has contributed in opening new cruise destinations including Alaska, Caribbean, Baltic and Mediterranean regions for the newest Royal Caribbean Group ships, which are the largest in the world. As Marine Operations Vice President he is a member of the leadership team of the brand reporting directly to the CEO. He also overlooks the Safety for the Global Fleet of the Royal Caribbean Group.

Manolis is a native of Greece, born in Athens. He graduated the Nautical Academy of Hydra, Greece and is a Master Mariner since 2006. He also holds an MSc in Shipping from the University of Plymouth, UK. After his 23 years at sea onboard Celebrity Cruises Ships, out of which he served the last ten years as a Captain, he combines shipboard operational experience with corporate shore side leadership and management skills. In 2015, he moved from Greece to Miami, Florida, USA, where he currently resides with his wife and four children.
